Professional Summary

Meticulous and enthusiastic Software Developer with a Master's degree in Computer Applications and experience in full-stack web development. Strong background in Java, Python, React, and cutting-edge database technology. Proven track record of designing and developing scalable applications, solving intricate issues, and learning new technologies and tools. Enthusiastic to join innovative development initiatives in a dynamic team setting.

Technical Skills

- **Programming Skills:** Java, Python, HTML, CSS, JavaScript, C
- **Frameworks:** React.js, Next.js
- **Software Skills:** Git, GitHub, VS Code, Figma

Education

- **Master of Computer Applications (MCA)**
Jain College of Engineering, Belagavi | 2024 – 2025 (Expected)
- **Bachelor of Computer Applications (BCA)**
KLS Gogte College of Commerce, Belagavi | 2020 – 2023
CGPA: 7.8

Projects

- **Responsive To-Do List App**([Github](#))

Developed an interactive task management web app using **HTML, CSS, and JavaScript** with real-time DOM manipulation for task creation, editing, and deletion.

- **NFC-Based Student Attendance System**

Engineered a contact-less attendance system using **NFC technology, PHP, and MySQL**, enabling efficient data capture and storage for student attendance.

- **TextUtils – Text Processing Web Tool**([Github](#))

Designed and deployed a **React.js** application with Bootstrap UI to perform real-time text transformations such as word/character count and case conversions.

- **Single Page Movie Info Application**([Github](#))

Implemented a React-based app using the TMDb API for live movie data retrieval, integrated responsive design and dynamic search functionality.

Certifications & Training

- Python with Machine Learning – Swayam(NPTL) (12-week course)
- Advance sql- Mindcluster(12-week course)
- **Data Analyst Intern – Teach-nook Career (2 Months)**

Analyzed datasets using Tableau to extract actionable insights and presented findings through dashboards and visualizations to support business decision-making.

- **Full Stack Developer Intern – Xcel Corp (1 Month)**

Contributed to end-to-end web application development using Python, Django, and MySQL. Assisted in back-end logic, database design, and integration tasks as part of a collaborative team.
